

## **Let's learn about each others families!**

### **Activity #1: Family Tree**

- Take a minute to work on your own family tree. Include everyone that is part of your family (*Mom, Dad, brothers, sisters, cousins, aunts, uncles...etc*). Write their name and how you are related to them. Don't forget yourself!

*You can use the tree picture on the next page to write down all your family members.*

- Once you have a minute to work on your own family trees, share them with each other. Talk about things you like to do with them, how often you get to see them, or anything else you want to share.

### **Activity #2: Where are you from?**

- Do you know where your family is from?
- Talk about different holidays your family celebrates or traditions you have with your family.
- Can you speak a different language?

*You can use the form on the next page to write down everything you are learning about each other.*

### **Extra Questions**

Where were you born? Have you lived in another country?

# My Family Tree

## ABOUT MY FAMILY:

My Family is from...

My favorite family tradition is...

I am these Nationalities...
