

Big Brothers Big Sisters

No Sew Bag

About: This activity is a quick and easy way to help save the environment by cutting back on plastic bags. All you need is some old t-shirts and you can make a no sew tote bag!

What you'll need: Old T-shirt, pair of scissors.

Instructions:

1. Take out your t-shirt. Cut off the sleeves and a portion of the collar as well.
2. Cut vertical slits at the bottom of the shirt, so that the shirt is frayed.
3. Take one strip from the front of the shirt and one strip from the back and tie them together. Continue until all of the strips from the front of the shirt are tied to the strips from the back of the shirt.
4. Go back and tie each strip again so they are double knotted.
5. Your bag is complete! You can make more at home and use them when you go food shopping.
