Paper Football

1. Get a piece of paper, fold it in half longways (so you should have one long skinny half)
2. Tear along the seam. Choose the best half and fold it longways.
3. Holding the paper vertical (tallways) fold the corner down into a triangle. That should form a triangle.
4. Continue to fold down making the triangles until you run out of paper to fold
5. Tuck whatever excess paper into the "pocket" of the football.

To Score a Touchdown:

You must flick the ball with your finger as your opponent forms a goalpost with their fingers. The ball must pass through the goal post without going off the table. That scores 6 points. Players take turns, one flick each, back and forth until someone scores. if you score a touchdown, you can kick an extra point.
