

Big Brothers Big Sisters

Picture Book Game

Getting Ready: Cut out the squares below. For the blank ones, draw your own simple picture in each.

Time to Play: Turn the squares face down and mix them up. When it's your turn select 5 or more squares then turn them face up. Now tell a story using each of the pictures as inspiration. Be creative! You don't have to be literal with the pictures.

After your Story: Return your squares to the pile, face down, and let someone else have a turn.

For more of a Challenge:

1. Line up your squares before seeing the pictures. Incorporate each picture in that order.
2. Only flip over one square at a time as you're telling your story, so you won't have time to prepare... you'll have to think on your feet!
