

Big Brothers Big Sisters

Wacky Monsters

Activity #1: Draw your Monster...

- Fold one piece of paper into 3 sections horizontally, like you would fold a letter.
- 1st person will draw the head on the top section. Then fold the paper so that the next person can not see what you did. Let the 2nd person know where to start drawing!
- 2nd person will draw the body on the middle section. Again, fold the paper back so that your partner can not see your drawing.
- 1st person will go back and draw the legs or bottom of your monster of the lower section of paper.
- Now unfold your paper and see what type of wacky monster you've created. You may need to complete a few lines to connect your monsters head, body and feet together!

Activity #2: How did your monster come to look like it does?

- Together decide how your monster came to look like it does. Did it have an accident, was it born like that?
- What do you think your monster likes to do?
- Give your monster a creative name!

Write a story about your monster, where it would live, what it likes to do... or draw the rest of your monsters family members!
