

Big Brothers Big Sisters

Blokus – paper version

Blokus is a strategy board game by Mattel.

How to win at Blokus: Be the first to successfully place all your pieces on the board. Or the game may end if there are no more possible moves. In that case, count up each **square** in all your leftover pieces (since bigger pieces can be harder to place) and whoever has the smaller number of **squares** left, wins!

How to play: Take turns placing each of your pieces on the board in an open spot. Once a piece has been placed, it cannot be moved. Each piece can only be used once.

How to lay down a piece: When laying a new piece it **may not** lie adjacent (flat side to flat side) to one of your other pieces but **must** be placed so at least one corner is touching one of your pieces already on the board. It can be adjacent to your opponent's pieces. You can turn and flip your pieces in any direction.

The Playing Board:
